

Darnall Medical Centre

Dear residents,

You will all be aware by now of the exciting plans to build a new Medical Centre on the site adjacent to Main Road in Darnall.

Our regular newsletters are intended to keep you, the local community, informed of our progress and the nature of forthcoming activities as well as providing the opportunity to share any concerns you may have throughout the project.

Kier Northern has been appointed as the building Contractor to manage the construction of the new medical centre on behalf of Community 1st Sheffield and NHS Sheffield. The main project is due to be completed by September 2012.

You can keep up to date on the progress of the scheme and see photos of new building taking shape on www.community1stsheffield.co.uk

If you need to contact us

In the first instance please contact our Sheffield office on (0114) 272 2327 if you wish to discuss any aspect of the project – our direct dial site office number will be provided when the site is established.

Starting the project

Our main works are scheduled to start in mid November 2011 and will begin with the site strip of existing vegetation. This will be followed by re-levelling of the site to allow commencement of concrete foundations and drainage activities.

We hope to then begin erection of the structural steel frame in January 2012 which will begin the impressive transformation of the site.

Considerate Constructors

Kier Construction (Northern) is committed to raising the standards of building site management and are an Associate Member of the 'Considerate Constructors Scheme'. This scheme sets out standards and procedures for contractors to follow which includes an independent complaints procedure.

Details of the scheme can be found posted on the site hoardings and fencing which shortly. Further details will also be provided in future newsletters.

Safety First!

Building sites can be **very dangerous** and we would ask that you explain this important message to your friends, family and especially children.

We will be providing a Pedestrian Access Gate to our site offices (located off Main Road), so if you ever need to visit a member of the Team to discuss anything please only use this entrance gate.

Safety First

Children Play Safely

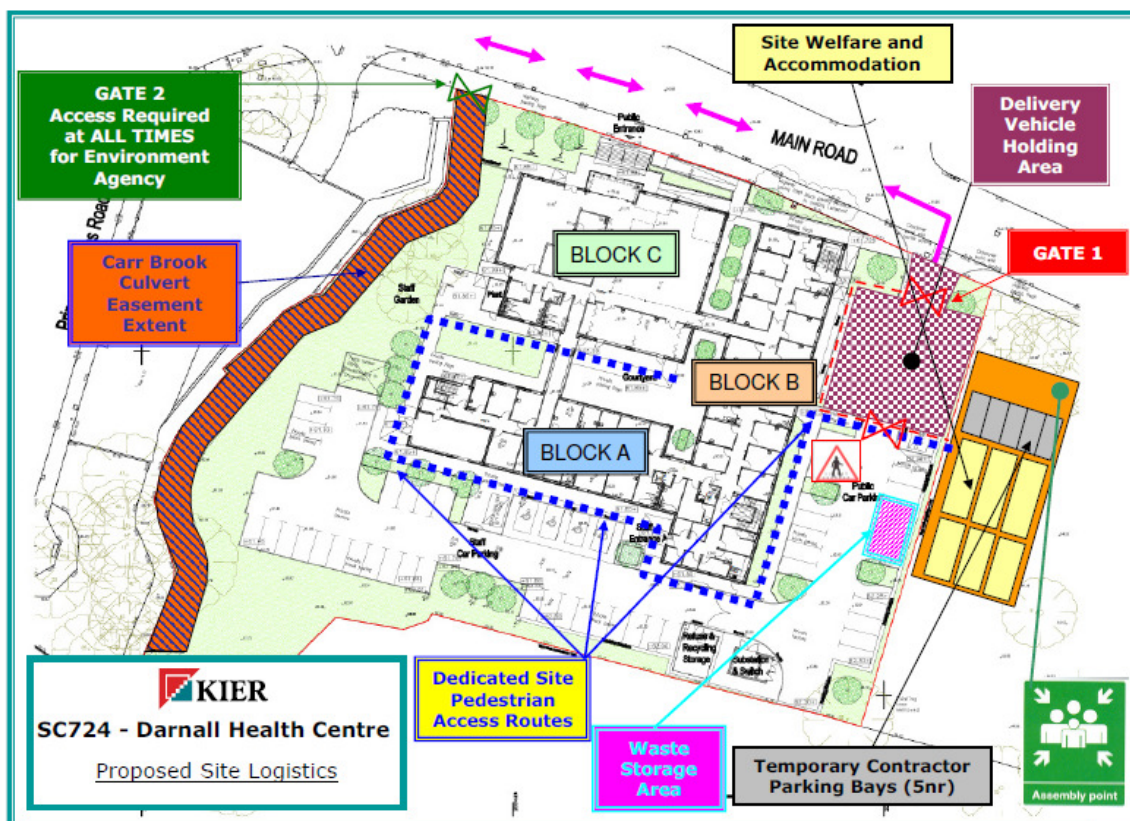

PLEASE KEEP OUT

Building sites are
VERY dangerous

And finally

We hope that you recognise the long-term benefits of this exciting project for your community, and would take this opportunity to thank you in advance for your patience whilst the construction of a the new Darnall Medical Centre takes place.
